Standard Reservations

On any night we're not hosting Live Entertainment or a Game Day Experience, seating is available as a standard reservation — book directly through OpenTable, subject to availability, just like any night out. No deposit, no ticket, no special steps.

Live Entertainment & Game Day Experiences

On select days — live music, a special guest, or a big game — we set up a dedicated Experience on OpenTable for that date. Check our events calendar for a full outline of what's coming up, then reserve your spot through the matching Experience listing on OpenTable.

How Experience Reservations Work

Experiences run a little differently than a standard reservation, since they're built around reserved Lounge seating and a guaranteed spot for the event:

1 **Ticketed reservation —** Experience nights are booked as a ticketed event with a required deposit at the time of booking for Lounge seating only.

2 **$10 reservation fee —** A $10 fee secures your reserved Lounge seating for the night.

3 **The rest goes toward your tab —** The remainder of your deposit is credited to your food and beverage (gratuities excluded) during that reservation — it's not an extra charge, it's a head start on your night.

4 **Use it or lose it, same night —** Your food and beverage credit (gratuities excluded) applies solely to that reservation. Any remaining balance is forfeited (we cannot refund or transfer the balance to another table, visit, or date.
